RIGHT PATHWAY - RIGHT PERSON - RIGHT JOB

www.tracys.com.au

Pipecon initially enlisted the services of the Tracy Group early in 2007 with the pending commencement of The Goldfields Superpipe in Ballarat. It was clear to us that we would require a staffing solution to cater for the needs of the 15 million dollar project should we be successful in winning the tender. We received notification that we had in fact been successful in obtaining the project and therefore implemented procedures to source skilled crews for commencement. We required skilled labourers, plant operators and truck drivers to begin on two different sites.

Tracy's are integral within the Civil Construction community of Ballarat so we felt confident we were receiving the right people for this project due to the industry knowledge of Tracy's staff and their understanding of our requirements. Tracy's advertised on our behalf, screened applications and advised us of potential candidates to fill the positions on these sites. Nineteen new staff members were added to our existing team of thirteen and the successful completion of the Goldfields Superpipe concluded in

June 2008. Tracy's eliminated the turbulence of employing short term staff and due to the quality of employees provided and company growth, we have employed most of the temporary staff in full time roles. The cooperation of the Tracy Group and their efficient candidate sourcing skills has lead Pipecon to another success. At any stage we are able to call on the staff at Tracy's to provide us with staffing solutions and continue to do so with current and future projects in the Ballarat, Geelong and surrounding areas.

In conclusion, we look forward to continuing a successful relationship with the Tracy Group for all our short and long term staffing solutions.
