

# Testimonial - Porter Industries

RIGHT PATHWAY - RIGHT PERSON - RIGHT JOB

[www.tracys.com.au](http://www.tracys.com.au)

Porter Industries employ over 150 staff across a wide range of market sectors including civil construction, plant hire, quarry and transport operations that are located predominately throughout the Western, South Western and Northern Victoria regions.

With such a diverse range of services and duties, our organisation is heavily reliant on quality recruitment / employment and training services. The Tracy Group have provided us with a range of services for over two years. Their services, ranging from wage structuring advice, employment legal requirements and of course, recruitment services including fee for service, job placement and labour hire service are of the highest quality. Our allocated Tracy consultants are extremely professional in their service delivery and take a great deal of time in client relationship building, to the point that we firmly believe that they understand our business and our goals as well as we do. Due to their service quality, we often find ourselves recommending their services to other businesses including new businesses entering our local labour markets.

We often compare the quality of Tracy's services to other players in their field. Their biggest points of difference being local labour market knowledge, willingness to go above and beyond the call of duty (after hours contact, sourcing information) and their accessibility. Simply put, they are second to none. They know our needs so well that they often present potential employees to us unsolicited and these candidates invariably become important members of our team.

We have no hesitation in recommending the Tracy Group as a leader in their field and see them as an important component of our entire operations.
